

What'd You think?

1. Was this seminar worth your time? *yes*
2. Do you understand what condensation-induced waterhammer is? *yes*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
sounds like this could be one of the most destructive things.
3. Was the Quiz useful *yes*

4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

I definitely learned a lot. I respect steam a lot more.

It would be nice to have more examples of our campus so I can relate to the issue directly. Maybe if ~~we~~ we were able to give you some instances prior to your arrival & you could speak about them, ~~and~~

For example; we should have provided our loop drawing to you before you arrived.

What'd You think?

1. Was this seminar worth your time? *Yes, Absolutely*
2. Do you understand what condensation-induced waterhammer is? *Yes, You did! Absolutly*
a. Do you concur that this is what causes destructive waterhammer in steam systems?
↳ You completely covered all topic from all angles, and thoroughly answered all questions
3. Was the Quiz useful *Yes, It really got me thinking.*

4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

*I wished we had had more time to cover. Any/all all issues on Condensate Piping. I saw that you had it. But more time would have helped.
Thanks so much!!*

What'd You think?

1. Was this seminar worth your time? **YES**
2. Do you understand what condensation-induced waterhammer is? **YES**
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
YES
3. Was the Quiz useful **YES**

4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

**NEED MORE REFERENCE TO PREVENTIVE MEASURES -
E.G. - OPEN DRAINS AT SHUTDOWN - INSTALLING
MORE DRAINS WHERE PROBLEM AREAS ARE IDENTIFIED -
TRAPS
TIPTED OR SUSPECTED.**

LOVED THE BEER CAN TRICK!

What'd You think?

1. Was this seminar worth your time? *yes*
2. Do you understand what condensation-induced waterhammer is? *yes*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
yes.
3. Was the Quiz useful
yes.
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)
very informative.
thank you.

What'd You think?

1. Was this seminar worth your time? *yes*
2. Do you understand what condensation-induced waterhammer is? *yes*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
with out a doubt!
3. Was the Quiz useful *yes*
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

I learned the very important safety steps to prevent destructive water hammer.

What'd You think?

1. Was this seminar worth your time? *YES, VERY MUCH*
2. Do you understand what condensation-induced waterhammer is? *YES*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
3. Was the Quiz useful - ~~FAIR~~ *NO* ~~FOR~~ *UNDERSTAND* ~~WATER~~ *HAZARD PREVENTION*
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

What'd You think?

1. Was this seminar worth your time? *YES*
2. Do you understand what condensation-induced waterhammer is? *YES*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems? *YES*
3. Was the Quiz useful *YES*
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)
WOULD LIKE A SHEET OF FORMULAS THAT WERE ON THE SLIDE, TO REVIEW TO ASSIST BETTER IN UNDERSTANDING. AS JUST TO FOLLOW AND TO CALCULATE ON YOUR OWN.

What'd You think?

1. Was this seminar worth your time? *Yes*
2. Do you understand what condensation-induced waterhammer is? *yes*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
Yes
3. Was the Quiz useful *yes*
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

It was really great.

What'd You think?

1. Was this seminar worth your time? *Yes*
2. Do you understand what condensation-induced waterhammer is? *Yes*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
Yes
3. Was the Quiz useful *Yes*
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

I Learned Something

What'd You think?

1. Was this seminar worth your time? *yes*
2. Do you understand what condensation-induced waterhammer is? *yes*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
yes
3. Was the Quiz useful
yes

4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

*Some of the slide ~~was~~ ^{was} away from
presentation (words on top of words)*

*Keep stressing the point about
update DRAWING?*

What'd You think?

1. Was this seminar worth your time? *yes*
2. Do you understand what condensation-induced waterhammer is?
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
yes
3. Was the Quiz useful
yes
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)

Good Job Thanks

What'd You think?

1. Was this seminar worth your time? *Yes*
2. Do you understand what condensation-induced waterhammer is? *Yes*
 - a. Do you concur that this is what causes destructive waterhammer in steam systems?
Yes
3. Was the Quiz useful
Yes
4. Tell me anything else you thought, but I didn't ask about? (something could be improved, didn't understand something, "I learned something", "I'm surprised it wasn't a waste of time", whatever....)
It was Good,
